PG DEPARTMENT OF PSYCHOLOGY

PROGRAMME OUTCOME

- Students will demonstrate familiarity with the major concepts, theoretical perspectives, empirical findings, and historical trends in psychology.
- Students will understand and apply basic research methods in psychology, including research design, data analysis, and interpretation.
- Students will respect and use critical and creative thinking, skeptical inquiry, and, when possible, the scientific approach to solve problems related to behavior and mental processes.
- Students will understand and apply psychological principles to personal, social, and organizational issues.
- Students will be able to weigh evidence, tolerate ambiguity, act ethically, and reflect other values that are the underpinnings of psychology as a discipline.
- Students will demonstrate information competence and the ability to use computers and other technology for many purposes. Students will recognize, understand, and respect the complexity of socio-cultural and international diversity.
