

1.4.1 – Institution obtains feedback on the academic performance and ambience of the institution from various stake holders such as Students, Teachers, Employers, Alumni etc.

PARENTS FEEDBACK REPORT 2023-24

INTRODUCTION

The **Parents feedback Report 2023-24** presents a comprehensive documentation of the aggregated feedback from parents. The insights gathered from parental perspectives are instrumental in driving initiatives aimed at enhancing the teaching-learning process, faculty-student interactions, and overall educational experience. The yearly collection of parental feedback underscores our commitment to transparency, accountability, and stakeholder engagement, contributing significantly to the continuous improvement of our institution's educational endeavours.

REPORT

The Parent Feedback report for the academic year 2023-24 highlights various aspects of the institution's performance. Parents appreciate the conducive teaching-learning environment, faculty approachability, and academic quality, with satisfaction rates of **94%**, **93%**, and **94%** respectively. They commend the institution for its diverse extracurricular activities, earning a 95% satisfaction rate, and its commitment to community engagement, achieving a remarkable 96%. However, there are suggestions for **improvement in administrative processes, add-on courses, and placement activities**, with satisfaction rates of 91%, 87%, and 75% respectively. Despite these areas for enhancement, parents are highly satisfied with facilities such as sports amenities, cafeteria services, transportation, and hostel accommodations, rated as 'Excellent'. The overall satisfaction rating on the institution's feedback platform stands at an exceptional 98%, indicating widespread contentment with the educational experience provided. This feedback serves as a valuable tool for on-going improvement efforts aimed at ensuring a nurturing academic environment and holistic development opportunities for students.

ANALYSIS

- Strong emphasis on the conducive teaching-learning environment and faculty approachability.
- Confidence in academic quality but areas identified for administrative and placement improvements.
- Appreciation for extracurricular activities and community engagement initiatives.
- Facilities receive high praise, indicating a positive campus experience.
- Recommendations for curriculum alignment with industry standards for enhanced professional readiness.
