2018-2021**

Solar Plant for energy resource to make the campus power efficient

Solar plant at Yuvakshetra Institute of Management Studies serves as a sustainable energy source, reducing the campus's reliance on non-renewable electricity. It offers a practical learning opportunity for students, allowing them to study renewable energy technologies and environmental impact. By harnessing solar power, the institution contributes to reducing carbon emissions and promoting eco-friendly practices. Furthermore, a solar plant can potentially lower energy costs, providing long-term financial benefits while aligning with the institution's commitment to sustainability.

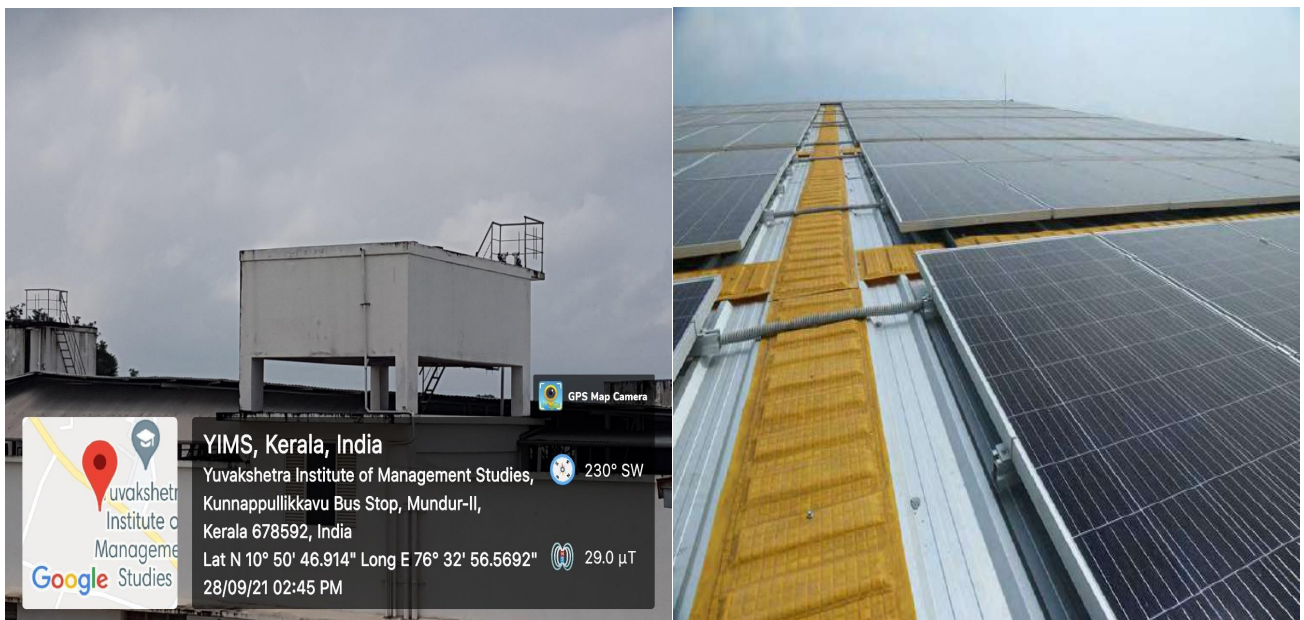

SOLAR ENERGY / SOLAR POWER PLANTS

The institute has achieved a remarkable level of energy self-sufficiency, meeting its electricity demands entirely through on-site generation, testifying its commitment to sustainable energy practices. The administrative block currently harnesses the power of the sun through a 35- kilowatt solar energy system, while the Christ Hill campus functions with an 60-kilowatt solar energy system.

WHEELING TO THE GRID

Wheeling to the Grid is an innovative solution, verified and approved by the Kerala State Electricity Board on January 28th, 2021, that leverages the existing electrical infrastructure to ensure a reliable and sustainable power supply for the college. With a total capacity of 95 kilowatts, this system allows the institution to operate entirely on its own electricity source.

New academic block (Jubilee Block)

The Jubilee Block at Yuvakshetra Institute of Management Studies was constructed to commemorate the 25th anniversary of the episcopal ordination of His Excellency Mar Jacob Manethodath. This new academic block features well-equipped classrooms designed to facilitate an interactive and student-centric learning experience. It also houses advanced laboratories that provide students with practical knowledge and technical skills essential for their management studies. The Jubilee Block stands as a tribute to the vision and leadership of His Excellency while enriching the academic infrastructure of the institution.

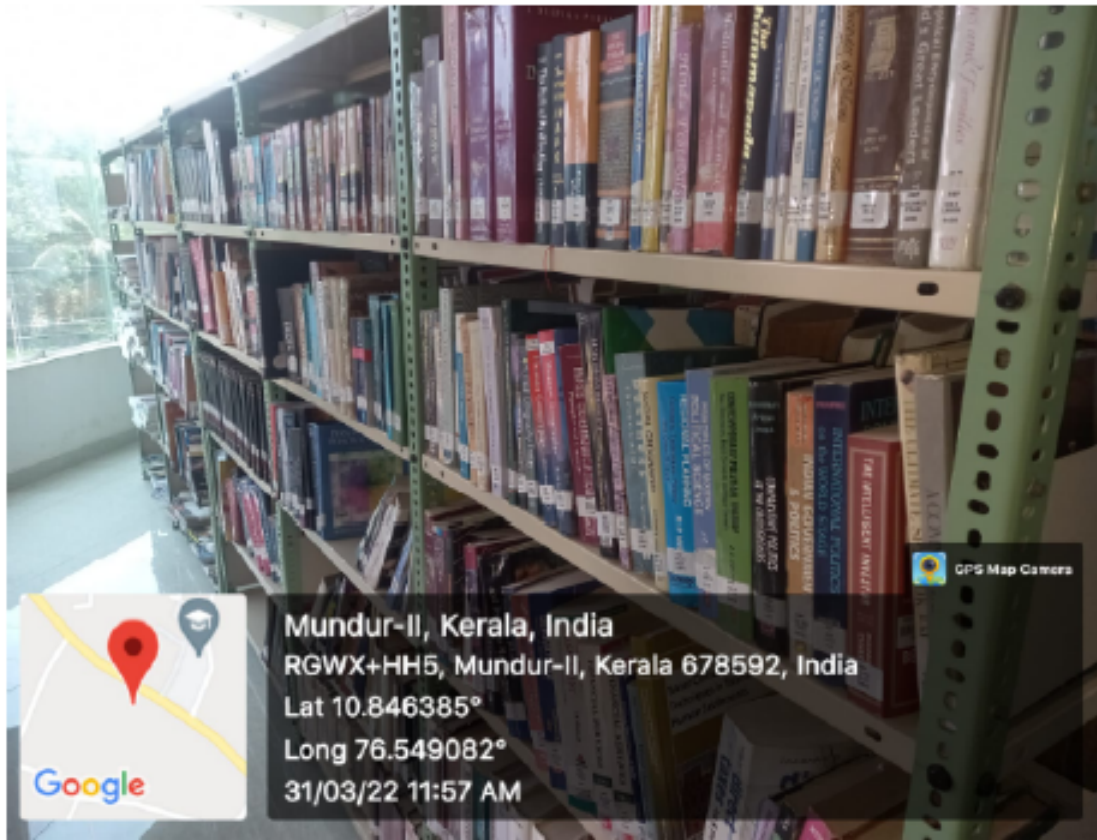

IQAC Room

The IQAC (Internal Quality Assurance Cell) room at Yuvakshetra Institute of Management Studies plays a vital role in ensuring the continuous improvement of academic and administrative processes. It serves as a dedicated space for monitoring and evaluating the quality of education, fostering a culture of excellence across the institution. The room is equipped with necessary resources to coordinate and implement quality assurance strategies, including feedback mechanisms, audits, and assessments. By facilitating regular review and planning, the IQAC room helps uphold the institution's commitment to maintaining high standards in education and overall development.

Library Facilities Increased by Adding More Books, E-Journals, E-Books and E-Resources

Yuvakshetra Institute of Management Studies has significantly enhanced its library facilities by adding a wide range of new books, e-journals, e-books, and e-resources. This expansion aims to provide students and faculty with comprehensive access to current and relevant academic materials, supporting both in-depth research and everyday learning. The addition of digital resources ensures that users can access high-quality content from anywhere, promoting greater flexibility in their studies. With these improvements, the library fosters a dynamic learning environment, enabling students to stay updated with the latest trends and advancements in management education.

Inflibnet & Delnet

Yuvakshetra Institute of Management Studies utilizes Inflibnet and Delnet to enhance its library resources and support academic research. Inflibnet provides access to a vast collection of electronic journals, databases, and digital resources, facilitating seamless access to scholarly articles for students and faculty. Delnet (Developing Library Network) offers a wide range of bibliographic resources, enabling easy interlibrary loan services and resource sharing with other institutions. By integrating these platforms, the institute ensures that its community has access to an extensive range of academic materials, enriching their learning and research experiences.

Labs for Physics, Chemistry, Geography and Psychology Departments

Yuvakshetra Institute of Management Studies provides well-equipped laboratories for the Physics, Chemistry, Geography, and Psychology departments, supporting hands-on learning and research. The Physics and Chemistry labs are furnished with modern instruments and chemicals, offering students a practical understanding of scientific principles. The Geography lab is designed with geographic tools and models, allowing students to explore spatial and environmental concepts through real-world applications. The Psychology lab provides a conducive space for experiments and research in behavioral sciences, supporting both theoretical and empirical studies.
